122 responses

How useful would a knowledge-sharing community be for your studies? (Rate on a scale of 1 to 5)

122 responses

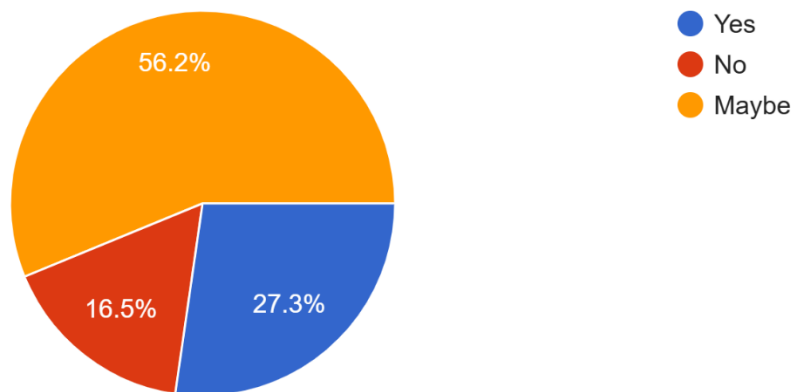

What types of questions would you most likely ask an AI-powered chatbot? (Select all that apply)

120 responses

Would you trust an AI-based system to provide accurate mentorship matching or personalized recommendations?

121 responses

What additional features or improvements would you suggest? (Conclusion)

- Resources Checking to gain trust.
- A chatbot that:
 - Can help on reaching our resources Easily
 - I can ask about last updates, last events and sharing resources on it .
 - for ease of dealing, for example, if I ask it about something on the platform, appointments, or other things.
 - be with us step by step
 - if every week there will be an update on it to be up to date with my progress and if my progress needed a change in plan

- help me in understanding system in university
- for helping in studying
- respond to questions about the college and send notifications to us
- allows the students to access training, Internships, workshops and part-time jobs based on their fields easily.
- the most important feature in my opinion is the UX and the responsiveness of the portal to ease the use of the portal. also OCR tool will be very useful and ability to analyse pdfs using chatbots
- Send email or message if we have quiz or events
- Make it easy and smooth to share and learn
- Built in media player to view files and videos
- We need to provide good resources for actual learning, not for taking an exam, and to provide resources from previous years, not just the current year (while someone needs these resources).

• يكون التواصل مع الطلاب بطريقة سلسة وشيقة

- Sharing (by any mean or feature) the expertise of older people in the same field during their academic years and their participation in the labour market besides orienting the freshmen towards the different fields and specialization.

اتمني تعملو حاجة تحسن من علاقة الطلبة ببعض و تشيل العوائق الموجودة في التعاون و المجهود المهدر من الطلبة اللي بتحاول تقدم حاجة مفيدة اللي بتعملوه هيحتاج مجهود و حاسس انه السكوب كبير حاولوا تحددوا المميزات المهمة (مش لمجرد انه عاوزين ai هنضيفه و خلاص) اعتقد انه اللي موجودين في الفيديو اللي فوق كانوا بيحاولوا يعملوا شبه اللي بتعملوه كذلك فكرو هنقدر نستضيف حاجة زي كده و لا ازاى نقلال تكلفة ده بحيث انه ممكن لو مفيش طريقة مباشره لتدخيل ربح يكفي الاستضافة تكونوا قادرين تعملوا ده بتمويل ذاتي. و بالتوفيق

- Study Planning and Time Management
- Research Assistance
- AI Tutors and Virtual Assistants
- I think If we have system made student to engage with the university
- Providing the necessary guidance and recommendations to protect our students
- Learning trials to find what suits you the best
- College resources like google drive would be more organized for courses.

Lastly, Notes from the PDF Maker: (Nour)

أنا شلت كل الإجابات اللي كان محواها إما دعوة بالتوفيق أو إن مفيش تعليق. بس دول كومنترات جميلة بصراحة ف هسيبها هنا

- I hope you create a platform that is more effective than Thinki and can be fully relied upon for artificial intelligence, and I am confident that you will amaze us. Thank you for everything you have done, are doing and will do with us at ICBC Damanhour. I trust you and I am looking forward to completing the rest of my university years on your wonderful platform.

Moamen Sakr, Preparatory class in Damanhour Engineering

- لا ال features اللي انتم اختارتوها أظنها مناسبة وكفاية كبداية
